

HOW THE BRITISH SPENT TWO CENTURIES COMMITTING GENOCIDE OF THE SEMITES, THE HEBREW ISRAELITES AND INSTALLED A FAKE NARRATIVE OF JEWRY INTO ISRAEL

A historical timeline researched and compiled by Raja Mohammed Ansar Khan, The Royal Family of Kashmir (Mirpur) and House of Judah, the Star of Jacob and Hebrew Moshiah

1. The Unimpeachable Historical Record

1612–1613: The Foundation of Identity — The Makhzan_j_Afghani

Khwaja Nimat Allah al-Harawi compiles the *Makhzan-i-Afghani*, formalising the history of the Afghan people and documenting their direct descent from **Qays Abd al-Rashid** and the **Bani Israel (the Lost Tribes of Israel)**. This establishes an unbroken, sacred, and non-Western framework of ancestral and spiritual authority centuries before European intervention.

2. The British Empire Response

1829–1838: The British Realisation and Imperial Reconnaissance

- **1829:** The British state commissions Bernhard Dorn to translate the *Makhzan-i-Afghani* into English to study the frontier lineages.
- **1830s:** High-ranking British imperial figures—including **Mountstuart Elphinstone** and **Alexander Burnes**—encounter the *Bani Israel* identity among the Afghans firsthand. Realising the profound ideological challenge this independent, ancient lineage poses to Western imperial authority, the British begin formulating alternative histories to undermine it.

3. The British war crimes against the Bani Israel

1839–1846: Military Encroachment and the Imposition of Proxy Royalty

- **1839–1842:** The British launch an unprovoked invasion of Afghanistan. The Afghan *Bani Israel* tribes launch a coordinated defence of their land, routing the invading forces during the 1842 retreat from Kabul to protect their sovereignty.
- **1846: The Imposition of Proxy Rule.** In Kashmir, the British enforce the **Treaty of Amritsar**, bypassing the authentic, ancestral authorities of the land—the **Davidic Line and House of Judah**. Because the descendants of the *Bani Israel* are all Muslim now, the British deliberately impose non-Muslim, Sikh-aligned client rulers (the Dogra dynasty, previously serving under the Sikh Empire) to ensure a reliable proxy buffer for British frontier interests. The true Kashmiri royalty are systematically displaced from formal governance, dissolving into the hills without land, power, or official recognition, preserved only through local cultural avenues.

4. Mid-to-Late 19th Century: The Engineering of British Jewry and Zionist Strategy

- **1840s–1880s:** To counteract the authentic Eastern Hebrew lineages and secure geopolitical control over the vital trade routes to India, British imperial strategists—including figures like **Lord Shaftesbury** and **Benjamin Disraeli**—actively cultivate and promote the concept of "British Jewry."

- **The Blueprint for the Levant:** The British political elite begin championing a specific, Western-centric narrative of restoration. They lay the ideological and financial groundwork to sponsor the migration of European, non-Semitic, non-Hebrew populations into the Holy Lands, directly intending to establish a loyal Western foothold in the heart of the Middle East.

5. 1889–1893: The Administrative Assault on the Ancient Lineages

- **1889:** The British Resident, **Colonel Parry Nisbet**, orchestrates an administrative coup in Kashmir to secure the northern border passes. The British force the titular court to step aside, shifting power to a British-steered Council of Regency and establishing the **Gilgit Agency**. The true lineages remain entirely unacknowledged and hidden in the mountains.
- **1893: Sir Mortimer Durand** enforces the **Durand Line**, artificially fracturing the traditional territories of the Afghan *Bani Israel* to permanently disrupt their geographic and political cohesion.

6. 1917–1930s (Pre-Holocaust): Import of new Jews and the Erasure of True Hebrew Origins

- **1917:** The British government issues the **Balfour Declaration**, officially committing the power of the British Empire to the creation of a "national home" in Palestine. This formalises the imperial alliance with Western Zionist organizations.
- **1920s–1930s:** Decades **before the Holocaust**, under the **British Mandate for Palestine**, the British systematically facilitate the mass importation of European, Western, non-Semitic populations into the Holy Lands. This influx is deliberately engineered by British statecraft to alter the demographic, historical, and spiritual landscape of the region. By imposing a Europeanised definition of identity onto the Levant, this movement initiates the continual erasure of the true, authentic Hebrew Israelite origins, heritages, and regional claims.

7. 1947–1948: The Imperial Exit and the Formation of Israel

- **1947:** Facing the collapse of their global control, the British abruptly terminate their presence in the subcontinent, abandoning their treaties overnight and leaving the borders of Jammu and Kashmir intentionally fractured and unresolved.
- **1948:** The Western-engineered timeline culminates in the official **formation of the State of Israel** in the Levant. This final act solidifies the geopolitical displacement of the region's ancient histories, substituting the authentic lineages with a Western-aligned nation-state.

8. Present Day: The Legacy of Preservation Through Local Memory

The artificial lines, proxy administrations, and rewritten timelines engineered by British figures remain the root cause of ongoing erasure and instability across both Asia and the Levant.

While official Western maps and political structures ignore the true history, the authentic descendants of the **House of Judah** and the **Bani Israel** carry the true legacy and claims of the land forward entirely through local, cultural, and spiritual avenues, independent of any Western recognition.

9. The Arrival of the Moshiach

Mohammed “Mo” Ansar (Raja Mohammed Ansar Khan), is a hereditary Prince of Azad Kashmir and the House of Judah, was born in Watford, Hertfordshire in April 1974. He attended Watford Boys Grammar School and studied law in Southampton. He is known publicly since 2024 as the Star of Jacob. He is a disabled man with advanced Grade 3 Cervical Spondylitic Myelopathy (CSM), Functional Neurological Disorder (FND), a history of cardiac events, and permanent physical disfigurement as a result the crimes done to him – he was not born like this. He is identified in scripture as the *Suffering Servant*, a man afflicted because of the evil doing of others. He is the Hebrew Moshiach.

For almost a decade, he was the most prominent and effective Muslim opponent of far-right extremism, terrorism and radicalisation in the United Kingdom – a strategic lead on Prevent and establishing Channel working alongside police and security services. He appeared regularly on BBC One, BBC Radio 4, Sky News, CNN, Channel 4, and Al Jazeera. He was a contracted BBC contributor with a payroll number, a visiting lecturer at the University of Winchester, and a public intellectual leading debates across public life. By 2012, he was the nation’s leading Muslim faith and community leader and was a national voice until state actors, and state sponsored media operations colluded in his active cancellation from public life, the destruction of his family and home, his health and almost his life.

In early 2024, after a lifetime of public service, revelations and beneath astronomical miracles, in the Hebrew calendar month of Nisan, debilitated, infirm, unable to walk or breathe and from a sickbed in Southampton abandoned by the NHS, his friends and family, Mo Ansar became the Moshiach. According to Hebrew prophecy, right on time. It was thereafter reported to the foreign secretary David Cameron and prime minister Rishi Sunak, senior political figures and journalists, to theological figures, the Chief Rabbi, the Board of Deputies and leading Muslim figures across the world. The Knesset have been informed as was the former Deputy Prime Minister David Lammy, who met with an Israeli delegation thereafter. It is an open secret.

He now seeks to fulfil prophecy and return his people, the Hebrew Israelites, back to their ancestral homeland, to reclaim his birthright and that which belongs to his people and to guide humanity through the coming apocalypse and into the new world.

The actions of the British state in his oppression, the harms done to him and his entire family have been meticulously chronicled and now shall be accounted for. The British state can do this in open play or behind the scenes but either way shall have no place to hide. There shall be no delays and no obfuscation and ultimately, no game play; the Moshiach is sent here to win and end this global tyranny that exists and ultimately to facilitate the migration of his family back to Kashmir after these claims with the state are settled.

These claims are undeniable, and what has been decreed shall come to pass.

M. Ansar
